FOR IMMEDIATE RELEASE

Combined Delays on State Route 96

SISKIYOU COUNTY – The California Department of Transportation (Caltrans) District 2, advises motorists of numerous roadwork projects on State Route (SR) 96 in Siskiyou County over the next two weeks. The projects will be under one-way traffic control with delays varying from three minutes to sixteen minutes at each location.

For those traveling the length of SR 96 between the Humboldt/Siskiyou county line and the junction of SR 96 and SR 263 and will pass through all construction zones, an additional hour is anticipated for your trip.

The projects consist of culvert/storm water repair, widening and retaining wall construction, and chip seal, maintenance and roadway rehabilitation for damage from last winter's storms.

We ask motorists to anticipate the delays, please be patient and carry water and snacks to make your trip comfortable.
